

Year 3 - Sports Provision Chasewater and Shugborough

"I learnt how to use the map symbols to find the clues."
Jay S

"I was resilient when I fell off the climbing wall but got back on and reached the end."
Jack H

During the summer term, year 3 have taken part in a variety of outdoor sporting activities at the Chasewater and Shugborough education centres. For eight weeks the children have developed their resilience, taking part in activities which often took them out of their comfort zone, including caving and bouldering. All children have also become more reciprocal, demonstrating this by effectively working together to complete orienteering challenges. Canoeing has been a firm favourite and children have shown excellent listening and safety skills out on the Chasewater lake. They have all enjoyed racing across the water and nearly all managed to hold onto their oars!

Year 3 have thoroughly enjoyed all of the activities that have been on offer and have put 100% effort into their learning. They are all very proud of their achievements during these sessions and hope to return soon!

"Canoeing was the best! I am proud that I was brave enough."
Evie F

"I was so close to the gold target in archery and think I could hit it next time."
Max C
